

Gecić Law Recognized in WIPR Leaders 2026

Gecić Law is proud to announce its recognition in the 2026 edition of WIPR Leaders, with Bogdan Gecić, Founding Partner, and Vera Davidović, Counsel and head of the firm's IP practice, again named among leading intellectual property practitioners.

Published earlier this month by World Intellectual Property Review, WIPR Leaders highlights top IP lawyers across jurisdictions and practice areas. The recognition further confirms Gecić Law's growing reputation in intellectual property law and reflects the strength of its work in copyright, trademarks, designs, trade secrets, and IP enforcement.

About WIPR Leaders 2026.

WIPR Leaders is a global directory of distinguished intellectual property lawyers. It helps clients, in-house counsel, and referral partners identify trusted advisers for complex IP matters.

The 2026 edition marks a further evolution of the guide. WIPR now presents Leaders as a dynamic, year-round program, with new practitioners reviewed and added throughout the year.

This approach allows the directory to reflect developments in the IP market better and to provide broader visibility to leading practitioners across established and emerging jurisdictions.

A Rigorous Selection Process

WIPR selects Leaders through a research-driven process that considers professional reputation, peer and client recognition, track record, and contributions to the IP community. The guide especially focuses on lawyers who combine technical excellence with practical insight and strong market credibility.

For Gecić Law, this recognition certainly highlights the firm's continued focus on sophisticated IP advice. It also reflects the team's ability to support clients in protecting, enforcing, and commercializing intellectual property rights across Southeast Europe and beyond.

Leadership Reflections

Recognition in WIPR Leaders 2026 is a great honor. Intellectual property has become central to business strategy, innovation, and growth. Our clients need clear, practical, and forward-looking advice, and our team works every day to deliver exactly that. This recognition reflects the trust our clients place in us and the dedication of our entire IP team,” said Bogdan Gečić, Founding Partner of Gečić Law.

“Being named among WIPR Leaders is both humbling and motivating. IP law indeed sits at the intersection of creativity, technology, enforcement, and commercial strategy. We are proud to help clients protect what makes their businesses distinctive and valuable. I am grateful to our clients and colleagues for their continued confidence and support,” said Vera Davidović, Counsel at Gečić Law.

Looking Ahead

This recognition marks another important milestone for Gečić Law’s IP practice. The firm will continue to strengthen its capabilities and support clients in matters involving trademarks, copyright, designs, trade secrets, unfair competition, enforcement, and IP-driven commercial strategy.

Gečić Law remains committed to delivering precise, creative, and business-oriented legal advice to clients whose ideas, brands, technologies, and innovations require strong protection.
